Spring 2019

Mission Accomplished Report:

We were successful in distributing our contributions and supplies to all three hospitals in Danang!

On Friday, April 12, we donated 800 gift packages and cash in red envelopes along with much needed food supplies to all 800 patients at the oncology and mental hospitals in Hoa Khanh, Danang. All the patients were very happy, along with the doctors, auxiliary staff and volunteers!

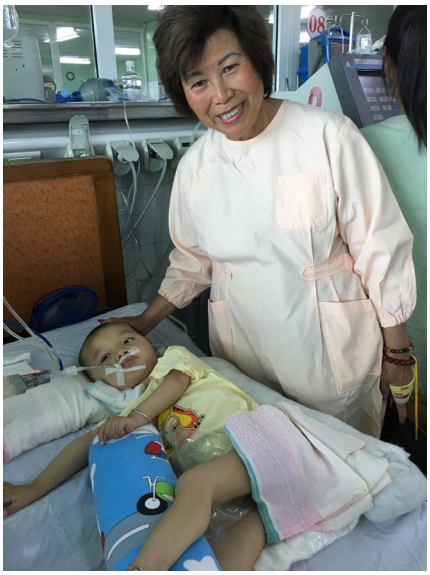
While we were handing out our donations at the oncology hospital, the news reached the mental hospital nearby, and they approached us with a "wish list" of things we take for granted over here, such as small snacks for when they are low on food, sanitary supplies, anything to do with public health for people with mental problems. They needed fans because of daily temperatures of over 100. They requested ten benches for sitting outside under the trees when it's too hot to be inside under the old metal roof and in the crowded facility.

But we didn't have enough funds to fulfill their requests. So we ordered what they needed most and had it delivered to them while we were still there. Everybody was so happy to receive our contributions.

Deepest gratitude to Martha Hertelendy, our vice-chairperson of Global Village Foundation with her husband, George Norton, and Le Thu Nguyen, our long time benefactors. Mel Potter and local volunteers lent a hand to help distribute the gifts and supplies to all 800 recipients and some staff.

We appreciate Dr. Maya Ito and Dr. Kato from Japan in giving care to the children. Thanks also to Dr. Hong Long, the Vice Director and his staff at the oncology hospital. Thanks to Mr. Nguyễn Hoang Long and Danang TV News for covering our work on their newscasts.

April 16, we passed out another hundred gift packages and red envelopes to all the children in the pediatric intensive care unit and anesthesiology unit at the maternity hospital in Ngu Hanh Son district, Danang City. I wish you could see the real needs of these young people. That was three major contributions we made but there were many more needy people reaching out for help from us as well.



We hope these photos will tell a story better than words, perhaps they will warm your heart.

Also I received donations from a group of Viet Kieu on their pilgrimage “Xuyen Viet 2019” to help pay some bills for those who could not otherwise afford their medical bills, transportation home and caskets to bury their loved ones!

We honor your kind support and contributions to our 2018 Bridge of Peace Living Legacy Awards Gala last December in remembering those whom we loved and lost to cancer since *Heaven & Earth* was released 25 years ago in 1993/94. Your beautiful gifts and acts of compassion have now been delivered to those who needed them most. I wish you had been there with us to see the faces of those who received these benefits, but perhaps the next time you can travel with us so you can help to serve those in need!

Please note: On June 1989 Doubleday Publishing House gave birth to “When Heaven and Earth Changed Places” and on Oct. 1989 we held the grand openings Mother’s Love Health Clinic in Danang, Vietnam. For their 30th Anniversaries we plan on inviting world media members, the press, our supporters, fans and VIPs who reviewed my books, film and those that traveled with me to Vietnam over the past 30s. This year we plan on having a Heaven & Earth Pilgrimage to Vietnam. Please sign up for special pilgrimage in Nov. If you are interested, please let me know. On behalf of all the people who received your kind donations, thanks & deepest gratitude!

Importance note: Global Village Foundation new mailing address is:
2734 Vista Del Sembrado, Escondido, California, 92025
